**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

## **ADVISORY ACTION**

### ***Response to Amendment***

The applicant's proposed amendment will not be entered as it would require new search and consideration. As the removal of the word optionally from the definition of aryl group materially alters the scope of the claim by requiring the substituent R<sup>1</sup>, the new scope would need further consideration.

Additionally, the proposed amendment does not overcome the enablement rejection as set forth in the final action. The claims allow for an unsubstituted bis(halomethyl)arylene comonomer along with the monomer of Formula (I). As this monomer can be up to 98 mol% of the copolymer, it would substantially impact the solubility of the polymer. As set forth in the final rejection, the original specification does not provide enabling disclosure for unsubstituted monomers.

### ***Response to Arguments***

The applicant's arguments appear to be substantially the same as the arguments presented in the after-final amendment presented on November 23, 2009 which was entered by the Office. The arguments were responded to in the Advisory Action mailed December 3, 2009.

***Correspondence***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Liam J. Heincer whose telephone number is 571-270-3297. The examiner can normally be reached on Monday thru Friday 7:30 to 5:00 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Eashoo can be reached on 571-272-1197. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
